What is this Darkness?

A Near Dawn is a charmingly devastating psychological thriller with amusing highs, gut-wrenching crashes, and mature themes.

When Seattle-based attorney Sam Nichols, a victim to some disturbing psychological difficulties, takes an important new case, he finds himself exposed to progressively dire circumstances that threaten to unravel his reality and destroy those closest to him. With his mentor's firm on the brink of collapse, Sam will have to take on a ruthless multinational corporation being protected by some of the vilest people you could imagine. The odds already seem slim, but you will soon learn that things were never as they appeared - as an even deeper conspiracy begins to emerge. Where will you find yourself if you keep untangling the threads to this mystery? You must be brave to uncover the truth!

A Near Dawn is greatly inspired by traditional Point & Click Adventure games like Broken Sword, Blackwell, and Ace Attorney, and inherits some of their wit, humor, and even interface, compelling you to navigate both the internal and external darkness that threatens to consume our protagonist.

We just launched our [Kickstarter Campaign](#) to help get support for our project! Please take a look and if there is anything you can do to help share or support us, we would greatly appreciate it!
